Massachusetts: January 23rd - 24th, 2016

Coastal Storm Brings Snow January 23 - 24th

A steady light snow entered the area between 12:00 and 3:00 PM January 23rd. The snow quickly became moderate to heavy at times during the late afternoon and evening hours. The snow came to an end between 10:00 PM January 23rd and 1:00 AM January 24th. Temperatures began in the low 30s, but dropped to 20 - 23 by the end of the storm. Strong northeast winds of 25 - 35 mph triggered significant blowing and drifting snow that also caused near white-out conditions at times.
