An Intermittent Light Wintry Mix on January 14th

Start: 3 - 6 AM January 14th **End:** 2 - 5 PM January 14th

Spotty mixed freezing rain showers began between 3 - 6 AM January 14th, even mixing with a few sleet pellets and wet snow with temperatures between 31-33 degrees. Activity mixed with plain rain at times, especially around midday as temperatures generally warmed to 32-36 degrees. Mixed showers gave way to scattered light snow showers after midday which eventually tapered to non accumulating flurries by 2 - 5 PM.
