Massachusetts: January 15th - 16th, 2024

System Brings Wintry Mix on January 16th

Start: 12 - 2 AM January 16th   **End:** 7:30 - 9:30 PM January 16th

Periods of light snow developed 12 - 2 AM January 16th as the large system worked into the region, with temperatures 25 - 29 degrees. Steady snow turned moderate mid-late morning before warm air worked in, allowing for a flip from snow to some brief sleet then rain after 12-1 PM, as temperatures warmed to 33-35 degrees. As the system pulled away from the coast colder air worked back in, allowing rain to transition to a wintry mix of sleet, some freezing drizzle, and flakes after 5 - 6 PM. The mix then tapered 7:30 - 9:30 PM as temperatures dipped back to 28-32 degrees.

Zipcode	City	Type	Total	Freezing Rain	Notes

System Brings Wintry Mix on January 16th

Start: 12 - 2 AM January 16th   **End:** 7:30 - 9:30 PM January 16th

Periods of light snow developed 12 - 2 AM January 16th as the large system worked into the region, with temperatures 25 - 29 degrees. Steady snow turned moderate to briefly heavy mid-late morning before warm air worked in aloft, allowing for a flip from snow to sleet then freezing rain after 12 - 1 PM. The mix was relatively brief as temperatures warmed to 33-35 degrees, changing freezing rain to plain rain for a time in the mid afternoon. As the system pulled away from the coast colder air worked back in, allowing rain to transition to a wintry mix of sleet and pockets of freezing rain before ending as light snow showers 7:30 - 9:30 PM. Temperatures dipped back to 27 - 31 as rain turned back to a wintry mix at the end of the event.
